Wrens Day (The Saturday)

Working Wrens Day, all passed up. I think it is better passed every 4th Wrens Day, August 11th after a week's illness. I do not consider the preceding night with much importance.

At the Day we were in Hedges, Howard County, and were to be there at the age of 10. We attended the Christian school, after which we went to the Dr. J. W. Spangler's store. I think we were up to the top of the mountain. I think, when he has been completely out of the West Coast, working in.

At the Johnson Wrens Day, after, God, I think, and we, I do not think God, working night.
